**March 21, 2016 – Kenmore, WA** – Dave Grant, President of Phase 4 Design, Inc. is pleased to announce that the company has developed a new online technician training course for [Basic 2-Way Radio](#).

This class covers everything from Electronic Theory to RF System Design and more! We spend 4 days in a multimedia online environment that includes real-time and recorded video content plus live demonstrations.

With two way audio and video, this is interactive learning at its best, where the students can participate in real time with the instructor to ask questions or for more detail. The course includes a 350+ page guide and extra content on a flash drive.

The schedule is being finalized now with the intent to offer this class on a monthly basis with up to 25 seats available for each session.

Contact Dave Grant at 425-402-7308x1 or email [dave@phase4.org](mailto:dave@phase4.org) for more information and schedule.

Phase 4 Design, Inc. is located in the Pacific Northwest, near Seattle, Washington. We have been providing solutions to complex technical problems since 1989. Our nearly 40 years of combined experience in the areas of Two-way Radio / Public Safety / Paging, Telephony, LAN / WAN Network Design and Software System Design, makes Phase 4 Design, Inc. uniquely qualified to support Telex Radio Dispatch System Design, Implementation and Maintenance. Services are available Worldwide.
